I had a great experience working with Alex. He was very thorough when he came over to review our project and take measurements. He made me feel comfortable along the way and was helpful and available to answer all of my questions. Our project was not a large project (just tiling around our existing soaking tub) but he still treated us as an important client. We were able to visit the showroom with short notice to view the tile options. The timeliness of scheduling the project and the completion was also positive. There were some concerns I had with the installation but he quickly resolved them and we are super happy with the final product.

Alex and Tina was amazing to work with throughout the project. His prices were really competitive and he was extremely knowledgeable. He was able to track down the exact match of the old flooring we had. His crew was outstanding! They efficiently removed the existing floors, including some tile, and kept the work site tidy. I'm a picky customer in general, but their attention to detail blew me away. I look forward to working with Alex and his team in any tile & flooring in the future. He is the only tile & flooring person I will ever use again!

Alex and his team have done a great job with our LVP floors. Our project was to remove current carpet and blend the flooring with an existing style in the hallway. The end result looks seamless. His team was professional and came back later to ensure quality. I would definitely recommend their services to anyone else.

One more five star review for Alex and Best Floor Coverings!
We have just completed installation of tile floors in the main entryway and primary bathroom, and replacement of our carpeting. Alex was very helpful and easy to work with throughout. He helped select the materials, including recommending a supplier for tile to match some from 25 years ago. The installation guys did a beautiful job, worked well alongside other contractors, were prompt and very professional. We are delighted with our new floors!
